TAGC’s goal is to communicate genetic knowledge in an accessible way and to address its ethical and legal issues – to enable everyone to benefit from genetic discoveries. To achieve this, TAGC brings together efforts from scientists, media, lawyers and policy makers. It also provides key information in an accessible way, and training and consultations at different levels. Read more.

Never Mind The Neuro-Bollocks! with Dr Ashok Jansari

February 28 · 7:15 PM
The Star Tavern

An attempted guide through the onslaught of all that is neuro.....

We can replace hearts, help create babies in vitro & are making great strides in fighting many diseases. Despite this, we know less about the brain than we do about the surface of the moon! And yet, the brain is ubiquitous in society, constantly appearing in news articles, in advertisements for brain-trainers and in debates about how to improve children's brains through education. This talk will take you on
